

# Bring affordable homeownership to the steps of the Capitol!

MAY 24, 2022

## Capitol Build Day 2022

New York State's affordable housing crisis affects families from Buffalo to Binghamton to Brooklyn. While our State leaders, our Governor and Legislators, are working hard to help build a state where every family has access to a stable, affordable and healthy home, we have so much more to do. Now you can take part in this unprecedented opportunity to join policy makers and lift a hammer to advance Habitat for Humanity's mission!

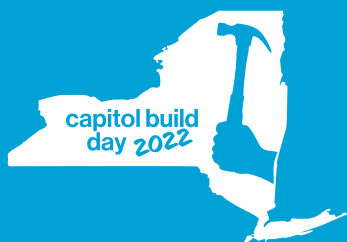

You and your organization can partner with Habitat for Humanity affiliates from across New York State, as well as elected officials on both

sides of the political aisle, for a unique volunteer building opportunity on May 24th, 2022.

Members of the Legislature and volunteers from up- and downstate communities will build a home right on the steps of the New York State Capitol in Albany. This is no model house - once complete, the house will become home to one hard-working family.

This one-of-a-kind event is the perfect opportunity to show your support for affordable homeownership in New York State. Sponsorship levels are available for the build itself and for the cocktail reception afterward.
